

Tecнове Business Group is a holding company comprising 10 businesses that work together on a daily basis to maintain leadership in each of the sectors in which they operate.

The knowledge and experience gained over 40 years, together with the contribution of each and every one of the companies, enable us to optimise results, provide comprehensive solutions and offer the best personalised products and services anywhere in the world.

Infrastructure and professional team.

We have **25.000 m²** of facilities equipped with forefront technology and a team of over **180** highly qualified **professionals**.

This infrastructure enables us to provide a quick and flexible response to our clients needs whilst maintaining exceptional quality standards in every project.

Our corporate culture is focused on **providing ongoing advice**, ensuring tailored solutions to the specific requirements of each business.

From design to maintenance.

We combine knowledge, innovation and quality to transform ideas into concrete, efficient and long-lasting solutions.

AT THE FOREFRONT OF CREATIVE ENGINEERING

At Tecnoseñal , we have been shaping the way brands, spaces and infrastructure communicate with people since 1996. We are a leading company in the development, manufacture and installation of corporate identity solutions, signage, digital signage, commercial furniture and railway equipment, amongst other areas.

Our day-to-day work is based on a very clear principle: always staying one step ahead. We are committed to constant innovation, incorporating new technologies, materials and processes that enable us to offer products with a high level of reliability, durability and added value. It is not just about manufacturing, but about creating solutions that work, stand the test of time and bring a sense of identity.

We are part of TBG Group and have earned the trust of leading companies and organisations, both public and private, with whom we work closely, adapting to each project and every need.

At Tecnoseñal, we combine experience, creative engineering and commitment, taking care of every detail from the initial idea to the final installation. Because for us, every project is an opportunity to do things right... and a little better than last time.

At Tecnoseñal, quality is a culture that guides all our processes, applying strict control criteria and continuous improvement to offer products and services that meet the highest market standards.

Furthermore, we promote RD&I as a driver of innovation, participating in technological projects that seek more efficient, sustainable solutions tailored to our clients' needs.

Our projects include:

- **NAPE:** Development of office desks with wireless charging and noise reduction using WPT devices and piezoelectric elements printed with new functional inks. [See more...](#)
- **SMARTECONFORT:** Office furniture with localised heating, activated by presence detection and customisable via a mobile app. [See more...](#)
- **SENSDIGIPRINT:** A new generation of interactive furniture thanks to the integration of electronic devices via functional printing. [See more...](#)
- **PIEZOFER:** Sustainable piezoelectric system for monitoring, railway infrastructure, harnessing vibration energy for early detection of anomalies. [See more...](#)
- **TECNOPROWOOD:** Sustainable wood protection technologies for outdoor use, promoting the use of native timber with low environmental impact.

3M™ Commercial Solutions Division
qualifies

TECNOSEÑAL

as a **3M™ Select Silver Graphic Provider** for following application segments:

Fleet
Graphics

Car
Wrapping

Date of Issue: 28/10/2025

Date of Expiration: 31/12/2026

- ODOUR REMOVAL

For the following industrial sectors:

VEHICLE
BODYWORK

CONTAINERS

CORPORATE
IDENTITY

FURNITURE
COMMERCIAL

CANOPIES

MODULAR
BUILDINGS

PETROL
STATIONS

Our commitment to the future

We believe in doing things better.
We believe that every decision counts.
We believe that signage is also a form of care.

At Tecnoseñal, sustainability is demonstrated through action. Since 2010, we have been part of the **United Nations Global Compact** and we align our activities with the **Sustainable Development Goals**.

We measure and take action: we calculate our carbon footprint, **we are committed to solar energy**, and we have pledged **to reduce our emissions by 50% by 2030**.

We innovate to create a positive impact, incorporating technologies such as **PureAir**, capable of purifying the air and enhancing spaces through signage and design.

Our commitment has been **recognised by EcoVadis Platform**, reflecting continuous improvement in sustainability, ethics and social responsibility.

We design responsible signage.
We think of people and the planet.

Tecnoseñal. Signposting a more sustainable future.

TECNOSEÑAL has its own facilities for the manufacture of commercial furniture. We develop bespoke furniture projects, starting from the conceptualisation stage through commercial interior design and the design of commercial spaces, adapting to the specific needs of each client.

In each case, our teams handle the development and industrialisation, the manufacture of bespoke furniture, as well as the installation of corporate furniture, ensuring functionality, aesthetics and consistency with the brand identity.

Tecnoseñal's in-house engineering capabilities and industrial manufacturing resources enable the company to participate in digital signage projects designed to provide dynamic information in a variety of public spaces, including shopping centres, passenger transport terminals, public thoroughfares, and so on.

Our specific service involves providing the engineering and manufacturing required for the supply and installation of mounting structures with integrated components (screens, LCDs, LED screens, digital directories, display boards, etc.), as well as the logistical deployment and final installation at the project's implementation sites.

Tecnoseñal is an approved supplier of railway track equipment, such as rail fastening systems and wooden sleepers with a CE declaration of conformity, as well as synthetic sleepers and track fastening materials: elastic clips, screw anchors, fasteners of all kinds, washers, clips, seat plates, ribbed plates, metal spirals and associated tools, as well as any other newly designed material tailored to specific requirements; in short, railway equipment and engineering solutions tailored to each individual case.

We manufacture and supply Akoga timber sleepers with their corresponding V12 3H and KD-60 3H fastenings, designed by the Tecnoseñal engineering team for Adif's mixed gauge track.
